

Turbocharge Any Diet With New TrimSnax™

That's right - no matter what diet plan you are on, from Atkins and South Beach to Total Body Makeover, **TrimSnax™** was developed and is doctor approved as an important part of **any** diet program. Just two tasty chewable snacks provide 1 gram of protein and 100 mg of fiber for a satisfying, full feeling with **NO CALORIES**. The combination of Whey Protein Isolate and Fibersol-2™ provide extra protein for any low-carb, high protein diet and a tasty protein supplement for those people that do not get enough from their regular diet.

C'mon... Negative Calories?

The most unique benefit of **TrimSnax™** is that chewing, as reported in the *New England Journal of Medicine*, actually *increases* calorie expenditure. The chewing and digesting of the 0 carbs, 0 calories, 0 fat that you get with **TrimSnax™** gives you a negative calorie solution to snacking!

The protein and the fiber in **TrimSnax™** will help you feel fuller longer, and reduces the size of the meals you eat by helping you stay feeling full! This negative calorie chewable snack has everything it takes to help you turbocharge your diet program.

Why Proteins Is Our Secret...

Whey protein Isolate is a higher quality (more pure) protein with higher protein yield and higher biological value (BV). Fibersol-2™ has been added as a source of fiber with an ultra-low Glycemic index (GI). Fibersol-2™ 's low GI can help those who are managing weight loss, diabetes or hypoglycemia.

- **No Carbs! No Calories! No Fat!**
